

# **SURGEON GENERAL, STATE OF ARKANSAS**

## **JOSEPH W. THOMPSON, MD, MPH**

### **Arkansas Health Information Exchange Business and Technical Operations Workgroup Meeting**

Arkansas Center for Health Improvement  
1401 West Capitol Avenue, Suite 300  
Executive Conference Room  
Tuesday, February 16, 2010  
10:00 – 12:00 pm

### **Agenda**

#### **Summary report of previous meeting and update**

- Review meeting summary
- Co-chair status

#### **Workgroup assignment review**

- Public Health reporting requirements
- Community Health Centers – quality measurement reporting
- Quality Improvement Organizations quality measurements
- Meaningful use stage 1 – 3 requirements

#### **Identify entities in HIE network**

- Review document compiling the current reporting and the meaningful use requirements
- Map the data requirements to entities – outlined in the document

#### **Develop preliminary list of data elements**

- Using meaningful use as a filter, identify minimum data elements for the following
  - Identity reconciliation (foundation for Master Patient Index – MPI)
  - Demographic variables
  - CPOE – healthcare providers and hospitals
  - Laboratory and pharmacy
  - Quality measurement

#### **Outline report for Technical Infrastructure and Legal Workgroups review**

- Includes the proposed scope of the HIE (in total the entities and data needed for stage 1-3 of meaningful use) – for TI for technical solutions and Legal for identification of legal barriers or need for new legislation and HIPAA and FERPA specific requirements

#### **Workgroup meeting schedule**

- Discuss possibility of combining TI and BTO workgroups
- Review TI workgroup's current schedule and proposed combined meeting with TI and BTO
